

# Berners Street

London

---

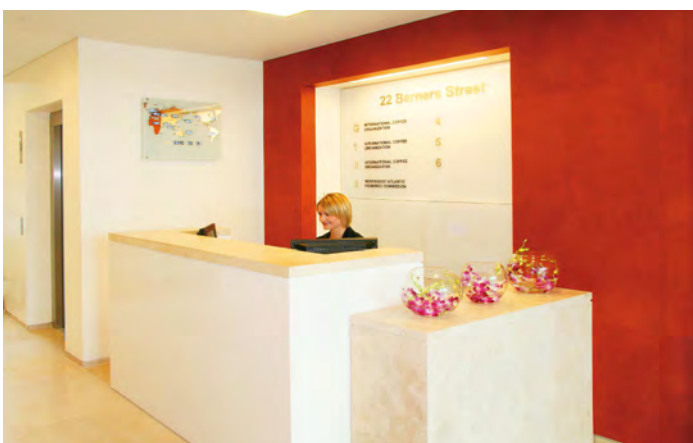

Client	<b>Joint London Holdings</b>
Area	<b>748sqm/8067sqft</b>
Building Type	<b>Office</b>

---

The office building is located opposite the Sanderson Hotel. The upper three floors and entrance foyer have been refurbished to provide high quality office accommodation.

At the top of the building the existing floor plate has been extended and a large terrace added on the Berners Street frontage. A contemporary aluminium rainscreen cladding system has been used for the extension with matching brise soleil reducing the need for comfort cooling in the Summer months.
