

Blandford Street

London

Client	Dorrington Investments
Area	515sqm/5550sqft
Building Type	Office

10 Blandford Street, in the heart of Marylebone, was constructed on a vacant site in 1986. We were the architects then and were appointed again to refurbish the building on expiry of the original 20 year leases.

Each of the five office floors have distinctive characteristics including a lift opening directly into the office spaces on the upper floors.

The ground floor suite is entered directly from Blandford street providing accommodation suited to tenants requiring their own identity.
