

Client	Shaftesbury Carnaby Ltd
Area	various
Building Type	Retail, Office

Following the purchase of the Carnaby Estate by Shaftesbury Plc in 1997 we were appointed to prepare initial proposals for a number of properties which had potential for refurbishment and redevelopment.

During the last ten years we have been continuously involved in a variety of project types and sizes including retail, restaurant, club, office and residential developments. In addition to the building projects we have contributed to a continuing programme of improvements to the urban context involving pedestrian and traffic circulation, graphics and signage and other elements of the streetscape.

Over this period, Shaftesbury and their agents have introduced a vibrant tenancy mix which, together with the physical changes to buildings and environment, have transformed Carnaby with its rather run down image of the 1980's into one of the West End's premier fashion destinations.
